

STATE

The Faculty-Staff Bulletin of The Florida State University

STATE is the official “document of record” for campus news. While many campus departments produce bulletins or newsletters, **STATE** is the only publication produced for ALL university employees.

•During the fall and spring semesters, more than 6,000 faculty and professional staff members receive **STATE**.

•In addition, during the summer months — May, June, July & August — proactive e-mail notification of **STATE Online** is sent to more than 16,500 FSU employees (includes non-professional staff and graduate assistants). **STATE Online** is available at <http://unicomm.fsu.edu/pages/State.html>.
